

Freeze Frame Photography

Amanda Bates

(405) 474-5353

I have always enjoyed taking pictures and find photography to be interesting and intriguing. My interest led me to the *Oklahoma School of Photography* where in 2005 I received a diploma in photography/lab techniques. Graduating from photography school is an accomplishment I am extremely proud of. My training included theory and practical hands-on experience in a wide variety of photographic techniques that incorporated both traditional film and digital media. While in school I received an award for maintaining an "A" grade average.

My career goal is to establish my business "Freeze Frame Photography" as a leader in portrait photography. I enjoy photographing children, couples and families in a studio or natural outdoor setting. My services also include parties, weddings and special events.

I want my clients to see my work as both creative and artistic. I use a combination of color and black & white images to showcase my individuality and unique perspective. I am an energetic and outgoing photographer that keeps repeat customers by providing them with outstanding service and quality products.
