I have enjoyed photography for as long as I can remember. I decided to pursue my passion by attending and graduating from the *Oklahoma School of Photography* in 2005. My training included both theory and practical hands on experience in a wide variety of photographic techniques. The curriculum incorporates traditional film as well as digital photography.

I am an energetic person with a positive attitude who takes great pride in my strong work ethic. My goal is to listen to my clients and understand what they are looking for in a portrait and give them not only what they hoped for but exceed their expectations. My passion is best expressed by photographing people. Therefore, I would enjoy working in a studio where my abilities to photograph both traditional classic and creative casual portraits would be an asset.

In the past couple of years, I have pursued freelance opportunities that included; engagement portraits, weddings, a baby arrival, family portraits and pageant work. I have also volunteered my talents to both an elementary and high school yearbook committee.

## Photography Skills:

Black & White Film Processing  
Black & White Printing
