## Red Turtle Photography

In 2004 I left my career in Marketing/PR to pursue my growing interest in photography. I received a diploma in Photography from the Oklahoma School of Photography in 2005. My training included both theory and practical experience in a wide variety of photographic techniques. The curriculum incorporates traditional film as well as digital photography. I also received a 2<sup>nd</sup> place honor for my entry "Sly" in the portraits contest.

The focus of my talent and energy is commercial photography. I excel at creating dramatic still lifes, high quality product shots and dynamic fashion/model photographs. I work primarily with medium format film; however, I am trained on 35mm, digital and large format (4x5) as well. My goal is to combine my clients' vision with my own photographic eye to produce excellent images suitable for display, presentation, and publication.

My professional work is characterized by strong color and attention to detail. I enjoy stepping outside the box to achieve the most expressive image of my product or design. My work is filled with unusual perspectives, details of light and patterns. My personal pursuits fuel my professional creativity.

## Photography Skills:

Medium Format  
35mm
