I graduated from the *Oklahoma School of Photography* in 2005 with a diploma in photography / lab techniques. While in school, I received an award for maintaining an "A" average and a 3rd place honor for my entry "Ali" in the "portrait" contest. My training included both theory and practical hands-on experience in a wide variety of photographic techniques that incorporated both traditional film and digital media.

Photography for me is a passion that involves discipline, concentration and a love for what I do. I see the camera as an instrument of spontaneity, which allows me to capture special moments for my clients. The satisfaction I get from photography is the knowledge that people will view my work and smile.

I recently acquired an established portrait studio and hope to continue meeting the needs of current customers as well as bring in new clientele. "Moments in time Photography" will open summer 2005 and is located at 6 W. Main in Ardmore, Oklahoma. The focus of my studio will be on portraits and weddings, however, I will continue to offer little league ball team pictures and hand-colored portraits. I plan to take beautiful and meaningful photographs of people that they can treasure forever.

Photography Skills:

Black & White Film Processing
Black & White Printing
