haylo68@yahoo.com

My discovery of photography has enriched my life and shown me my creative side. I decided I wanted to pursue my passion as a career. In 2005, I graduated from the *Oklahoma School of Photography* where I received honors for maintaining an "A" average and a 2nd place award for my entry "Star Flower" in the macro contest. My training included both theory and practical hands on experience in a wide variety of photographic techniques. The curriculum incorporates traditional film as well as digital photography.

My goal is to provide a unique and wonderful experience to those who hire me. My desire is to create a human record of our time that reveals to my clients their true essence. Most of all, I want to provide memories that my subjects will cherish for many years to come. I enjoy creating images that spark emotions, show the rawness of nature and offer opportunities for learning. My images are intriguing, meaningful and designed to be thought provoking.

My freelance work has included family portraits, senior pictures and band photographs for *Midwest City High School*. I also plan to volunteer my services to women in crisis where I could provide them with positive images of themselves and their children.

## Photography Skills:

Black & White Film Processing  
Black & White Printing  
Color Film Processing  
Color Printing  
Hand Coloring  
Infrared

Digital:  
Basic Computer Usage
